New NiceLabel Automation and Control Centre products.

Melbourne April 5th 2013, Gamma Solutions introduces five new products from NiceLabel for automated, controlled and secure labelling.

Automation Easy - Easily automate and control label printing allowing you to connect label printers to existing software applications and hardware devices without any customization.

Automation Pro - Provides a centralized and automated label printing environment that easily integrates with business critical systems to increase efficiency, consistency and visibility while minimizing cost, maintenance and user support.

Automation Enterprise - Standardize labelling across the enterprise. Designed to integrate label printing into SAP, Oracle and other leading enterprise applications. The world's largest organizations rely on NiceLabel to achieve label and brand consistency, secure centralized control and meet regulatory requirements.

Control Center Pro - Is a centralized label management system for companies that require labelling traceability and visibility. It lets you comply with industry standards, control your labelling environment, and quickly respond to label change requests.

Control Center Enterprise - Enterprise label lifecycle management ensures a centralized traceability and management layer for labelling, required in medical, pharmaceutical, biotech, manufacturing and in several other industries. It ensures compliance with regulatory requirements or your company internal security and quality standards.
